

GOVERNMENT FURNISHED PROPERTY

The following Excel Workbooks represent the most recent “snapshot” of the material transferred to this contract as indicated on SCR H006. At the time of this initial accounting, taken from the Government On-Line Data (GOLD) system, there was a known potential for a duplication of accounting between these listings, and the listings of engine related material in Attachment 1, Annex I. The parties agree that these lists must be reconciled as soon as possible after award of the basic contract.

See SCR H013 for further instructions on this attachment.

Excel Workbook files attached to this Attachment 9 are:
